5.30	<i>End</i>	

Workshop: Introduction to Sketch Engine

Tuesday 15th July, 09.30-13.00

EURALEX venue, Bolzano

For anyone who is interested in corpus methods, and would like to explore a leading corpus tool, the Sketch Engine (as used for lexicography at Oxford and Cambridge University Presses, Collins and Le Robert, and national language institutes in Bulgaria, the Czech Republic, Estonia, Ireland, The Netherlands/Belgium, Ireland and Slovakia). This will be a hands-on session, with participants exploring the language of their choice in the Sketch Engine, under the guidance of the Sketch Engine team.

Programme

09.30 Introduction: how to use corpora in lexicography

10.00 Hands-on: using the methods

11.00 Feedback, questions, further functions

11.30 *Coffee break*

11.50 What corpora are there? Building your own corpus

12:10 Hands-on: building your own corpus

12.40 Feedback, corpus evaluation, corpus comparison

13.00 *Close*

Trainer: Adam Kilgarriff
