

within limits the search to the content of a structure or a sequence of tokens

"unicef" within

<doc date>="2014-05-15" & date<="2014-07-15"/>

<doc/> refers to the whole document
<doc> refers to its beginning and
</doc> to the end

The query will find mentions of UNICEF in the **Timestamped corpus** between the two dates. Structure attributes (metadata) can be compared with <= or >=. Digits are compared numerically and letters alphabetically even if the string combines them. These codes will be sorted: AA65 AA601 AA605 AB6 AB008
